

10FT REFRIGERATED CONTAINERS – SINGLE PHASE

Used by a wide range of industries including food manufacture, R&D, automotive, pharmaceutical, chemical, agricultural, museums, retail and supermarkets as well as for general archiving. This unit has a decent floor space for up to 4 Euro pallets per layer*.

As with all Spacewise single phase refrigerated/temperature controlled containers these are capable of precisely controlling temperatures from between -20°C to +5°C. Spacewise refrigerated/temperature controlled units are of low noise and the most energy efficient available to date. All units are to a food and pharmaceutical grade so are capable of storing a wide range of products.

Spacewise units as standard are delivered with a flat floor, butchers type door opening, internal lights, man trap panic alarm and a loading ramp. We can on request also supply units fitted with a remote monitoring system which will alert you either by email or SMS in the event of a temperature problem.
